

KINDERGARTEN

Kindergarten at Lighthouse Christian School serves as an excellent beginning to a well-rounded elementary education and foundation for life-long learning.

Kindergarteners spend their days in a nurturing Christ-filled environment where every child feels valued as an individual and opportunities for academic success are plentiful. Fostering strong social skills in a safe environment, based upon Christian principles, is part of everyday life for these students. Our small class sizes allow teachers to develop a connection to each child and family, fostering clear communication between school and home. Kindergarteners graduate with the tools and confidence they need to succeed in their next educational step.

Cornerstones of Lighthouse Kindergarten

- **Bible:** Character building principles taught through Bible Stories and Scripture memorization.
- **Language Arts:** A systematic phonetic approach to language combining daily practice and varied assessments to ensure successful reading and beginning writing skills.
- **Mathematics:** A variety of manipulative and written activities are used to reinforce the recognition of numbers and values in sequencing, addition, subtraction, and problem solving.
- **Social Studies/Science:** A combination of reading, class discussion, and lab experiences are used to educate children about their surrounding environment.
- **Biblical worldview** approach to teaching and learning.

“Lighthouse has been such a blessing to our family. We couldn’t ask for a better environment for our children to learn in. The teachers and staff are so dedicated to their students, both academically and spiritually. It’s been amazing to see our children’s compassion for others and their motivation for learning grow while at Lighthouse.”
